[Quality Control is a Value Added Activity or ... - Bayt.com](#)

As per the lean , quality control is non -value added activity , as quality need to be built in system , not conducted seperately, but I say QC can be value added to if it in critical area affecting the planned results , or to fulfill the customer requirements , and stated needs to have it..

[Definition Of Quality - Learnmanagement](#)

Quality Control. This is defined as the process of identifying which products/services do not meet the organisation's standards. Whilst quality assurance is about prevention, quality control is about identification of low quality products which have escaped quality assurance. Network Working Group J - ncsu.edu

SMTP is widely deployed and high-quality implementations have proven to be very robust. However, the Internet community now considers some services to be important that were not anticipated when the protocol was first designed. If support for those services is to be added, it must be done in a way that permits older implementations to continue working acceptably. The extension framework
