[Does Sildenafil Indirectly Inhibit Phosphodiesterase 3 in ...](#)

To the Editor: I read with great interest the recent report by Schalcher et al, entitled Interaction of Sildenafil With cAMP-Mediated Vasodilation In Vivo. 1 The data presented deals with a potentially important issue and, given the increasing interest in using phosphodiesterase 5 (PDE5) inhibitors for various conditions, in addition to Potassium & sheet fact Heart Health - foodinsight.org Potassium also reduces salt sensitivity, an independent risk factor for heart disease, even without diagnosed hypertension, salt-sensitive individuals may experiences spikes in blood pressure when they eat salty foods, eating enough potassium-rich foods reduces or prevents the blood pressure response to dietary sodium, possibly by stimulating excretion of sodium chloride, or inhibiting Depression and the Link with Cardiovascular Disease

This review provides an outline of the association between major depressive disorder (MDD) and coronary heart disease (CHD). Much is known about the two individual clinical conditions; however, it is not until recently, biological mechanisms have been uncovered that link both MDD and CHD.
