Dear Internet Archive Supporter, I ask only once a year: please help the Internet Archive today. Most can't afford to give, but we hope you can.

ber den innermolekularen prozess der molekularspaltung ...

The behaviour of a number of aromatic molecules, when excited by electronic impact in a special discharge tube, has been examined. From the observed absorption and emission spectra a series of new molecular species has been found, the production of which can be correlated with one common method of cleavage.

Coloring Technology for Plastics - PDF Free Download These additives provide a steric hindrance that prevent any van der Waal's forces to take effect and very little energy

is required to disperse these types of pigments. On the contrary, if too much energy is used, i.e., the dispersing method is too harsh, the bronze or aluminum particles become damaged, bent and/or broken, resulting in a duller shade and in an extreme case, less hiding. The
